

PAVAN R

Final Year Data Science Student | AI,ML & Data Analytics Enthusiast

SUMMARY

Data Science undergraduate at T. John Institute of Technology (VTU) with a strong foundation in Artificial Intelligence, Machine Learning, Data Analytics, Cloud Computing, and Generative AI. Certified by Microsoft, NPTEL, Google Coursera, and Excelerate, with hands-on experience through global internships in Data Analytics and Data Visualization. Passionate about leveraging data-driven technologies to solve real-world problems, build innovative AI solutions, and continuously enhance technical expertise through projects, certifications, and hackathons.

EDUCATION

Bachelor of Engineering – Data Science

T. John Institute of Technology, Bengaluru (VTU)
2023–2027 (Expected)
CGPA: 8.6

12th – PCMC

AMC PU College, Bengaluru
2021–2023 | 75%

10th

Sri Sai Sadhbavana School
Completed in 2021 | 82%

CERTIFICATIONS

- Oracle Certified Foundations Associate
- GHCI 2025 GenAI Hackathon Participant
- Microsoft Certified: Azure Data Fundamentals (DP-900)
- NPTEL Certification in Data Analytics with Python
- NPTEL Certification in Natural Language Processing (NLP)
- Microsoft Azure AI Fundamentals Internship
- Google Certified Professional Machine Learning Engineer
- Database Management Systems (RDBMS) & Microsoft Fabric SQL
- DSA Using Python
- PMKVY Junior Software Developer Certification
- Data Analyst Associate Internship – Excelerate
- Data Visualization Trainee Internship – Excelerate

WORK EXPERIENCE

Data Analyst Associate Intern | Excelerate & Bijoya Company Nov 2024 – Jan 2025

- Cleaned and preprocessed datasets containing over 200,000 records using VBA automation.
- Performed data transformation and analysis to improve data quality and reporting.
- Supported data-driven decision-making through structured insights and reporting.

Data Visualization Trainee Intern | Excelerate & Saint Louis University Sep 2025 – Oct 2025

- Developed interactive dashboards and reports for business insights.
- Worked on data cleaning, trend analysis, and visualization techniques.
- Collaborated with international teams on analytics and reporting projects.

PROJECTS

OCEANX – Ocean Hazard Monitoring & Analytics Platform

- Developed an AI-powered platform for crowdsourced ocean hazard reporting and social media analytics.
- Designed real-time monitoring and analytics features to support disaster awareness and coastal safety.

EduMind AI – AI-Powered Education Platform

- Built an intelligent educational platform providing personalized learning assistance and AI-powered recommendations.
- Focused on improving learning outcomes through adaptive educational technology.

DataViz Pro – Advanced Data Visualization & Analysis Platform

- Built an AI-powered analytics dashboard using Next.js, React, and Google Genkit AI.
- Enabled real-time monitoring, reporting, and intelligent insights.

Banking System with Fraud Detection

- Designed a banking system using hashing and graph algorithms for fraud detection.
- Implemented transaction monitoring to identify suspicious activities.

eKYC – AI-Powered Digital Identity Verification System

- Developed an AI-powered eKYC platform using OCR and document validation techniques to automate identity verification.
- Improved customer onboarding efficiency by reducing manual verification efforts and enhancing accuracy in document processing.

SKILLS

Python • Java • SQL • JavaScript • React.js • Next.js
Machine Learning • NLP • Generative AI • Power BI • Azure • OCI
Git • GitHub • MongoDB • MySQL • Data Visualization • Excel

ACHIEVEMENTS

- Star Performer – Excelerate Internship
- Microsoft Certified: Azure Data Fundamentals (DP-900)
- Oracle Certified Foundations Associate
- 20+ Professional Certifications
